

BFF Motorised Trim Wheel – System Diagram

Notes:

1. See the STPDRV-1 card data sheet for details of connections
2. 24V Power Supply should be approx 1 Amp capacity for the specified stepper motor. Otherwise to suit motor size.
3. 5V power supply to be approx 1 Amp capacity. Larger if required to suit indicator servo.
4. Stepper motor specified fits the BFF motorised trim wheel assy.
5. BFF Trim Wheel requires 10 turn potentiometer to give 5 turn trim wheel rotation.
